SKILLS

• Languages:	C++, JavaScript, C, PHP
• Databases:	MySQL, PostgreSQL, MongoDB
• Web Technologies:	HTML, CSS
• Libraries/Frameworks:	React.js, Node.js, Express.js, Tailwind CSS
• Tools/Platforms:	Git, GitHub, Linux (CLI), Postman, XAMPP
• Soft Skills:	Problem-solving, Analytical thinking, Collaborative, Adaptability, Team worker

PROJECTS

Virtual Exhibition Platform- Full Stack Web Application | [Live](#) | [GitHub](#)

Oct 2025 - Mar 2026

- Designed a full-stack virtual exhibition platform that eliminates the geographical and financial limitations of traditional art galleries using the MERN stack, secure ticketing, Google OAuth 2.0, and role-based access control across 39 REST APIs.
- Engineered a real-time visitor presence system using Socket.IO and shared Express session authentication, recreating the collaborative experience of physical galleries through 4 custom real-time events.
- Centralized exhibition access and monetization by integrating Razorpay payment verification, bcrypt authentication, role-based authorization, and exhibition lifecycle validation to securely manage premium exhibition access.

Memory Book- Full Stack DSA Driven Web Application | [GitHub](#)

Jul 2025 - Aug 2025

- Created a digital scrapbook web application utilizing PHP, JSON storage, Tailwind CSS, and custom data structures (linked lists, stacks) for collaborative memory sharing and time-capsule functionality.
- Architected interactive friendship graphs and implemented location-based memory pinning using Leaflet.js, enhancing user engagement with visualization and mapping tools.
- Implemented email-bucketed JSON architecture with bcrypt authentication and session management for synchronized memory sharing and chronological timelines.

Cope Up – AI-Powered Career Counselling Platform | [GitHub](#)

Feb 2025 - Mar 2025

- Developed an AI-powered career counselling platform leveraging PHP, MySQL, and Google Generative AI for personalized career matching, assessments, and recommendations for students at various education levels.
- Established a multi-tier assessment system featuring IQ tests, personality quizzes, and real-time scoring to suggest customized career paths and relevant course options.
- Incorporated secure authentication methods and session management to safeguard student profiles and assessment histories while facilitating role-based access.

TRAINING

Mastering Data Structures and Algorithms | LPU(CPE)

Jun 2025 - Jul 2025

- Completed a 6-week intensive DSA program covering arrays, linked lists, trees, graphs, hashing, and complexity analysis.
- Earned Grade 'A' through tests and project-based evaluations. [Certificate](#)

CERTIFICATES

• Cloud Computing NPTEL Certificate	Apr 2025
• Programming with JavaScript Coursera Certificate	Aug 2024
• Legacy Responsive Web Design V8 Free Code Camp Certificate	Oct 2023

EXTRA-CURRICULAR ACTIVITIES

- Contributed to rural education and implemented watershed management programs at Chaitanya Trust **Hindupur**, promoting sustainable community development. [Certificate](#) Jun 2024
- Participated in the "Code-A-Haunt" 24-Hour Hackathon powered by Coding Blocks LPU, collaborating on a live project and improving innovation, rapid prototyping, and collaboration skills. | LPU Feb 2024

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 8.43	Punjab, India Since August 2023
Suvarna Bharathi Junior College Intermediate; Percentage: 95.6	Hindupur, Andhra Pradesh April 2021 - March 2023
LRG Vidyalayam Matriculation; Percentage: 98	Hindupur, Andhra Pradesh April 2020 - March 2021
